SmartPatch Copper Patch Panels

Product Part Numbering

	Catalogue Number	Scanner Sockets
UTP Panels Cat5e		
SmartPatch 24 port UTP Cat 5e panel	SP5PNLU24012	1 x A
SmartPatch 48 port UTP Cat 5e panel 1U	SP5PNLU48012	4 x B
UTP Panels Cat6		
SmartPatch 24 port UTP Cat 6 panel w. retention fixture SPMMax	P6PNLU240U2F-14	1 x B
SmartPatch 48 port UTP Cat 6 panel 1u w. retention fixture SPMMax	P6PNLU48012F-14	2 x B
UTP Panels Cat6A		
SmartPatch 24 port UTP Cat 6 A panel w. retention fixture SPMMax	SPA6PNLU24012	1 x B
STP Panels Cat6		
SmartPatch 24 port STP Cat 6 panel SPMMax	SP6PNLF240U2-14	1 x B
STP Panels Cat6A		
SmartPatch 24 port STP Cat 6 A panel w. retention fixture SPMMax	SPA6PNLS240K2	1 x B
Snap-In Panels		
SmartPatch 1U S/I panel with management (staggered)	SPMMCPNLX24S	1 x B
110 Voice Blocks		
SmartPatch Voice Block 110, 24, SPMMax	SPV110PNL24-14	1 x B
SmartPatch Voice Block 110, 48, SPMMax	SPV110PNL48-14	2 x B
SmartPatch 110 Wiring Block, 100 Pair with legs	SPV110WB100PRL	-
SmartPatch 110 Connector Block, 4 Pairs	SPV110CB4PR	-

PRODUCT DESCRIPTION:

SmartPatch Copper Patch Panels are fully compliant with the performance requirements of the latest Cat5e, Cat6 and Cat6A standards and are incorporated into the Brand-Rex 25 year warranty scheme.

Each panel is equipped with extra pins, circuitry, LED's and scanner connectors to allow the monitoring and recording of patching status. This information is communicated back to the server via scanner attachment cords to the scanner system and onto the LAN. The LED's above each port are used to trace connectivity or to offer patching guidance to the engineer.

Note - When ordering panels it is important to note the type of scanner attachment cord required.
